

GROUP 4

Name of Application

School life Bullying

Name of students

*Thvon Matthews
Kristoffe Mascoll*

What problem does the application/ideas solve?

This application will show students who are faced with similar bullying situation at school which decision is the most appropriate choice to take. It would also show the consequences if the least appropriate decision is selected.

How is your mobile application/idea innovative?

Most information presented to students about the issues pertaining to bullying are done through either oral or written means. This application allow students to take a more active approach to making decisions pertaining to bullying.

Target Group:

Ages 5 and Up

How will the mobile application/idea save the government money and Resources

- 1. Assist students to make the most appropriate decision when facde with similar dilemma, thus, implanting good social values and behavior.*
- 2. Guide students towards more appropriate moral and ethical decisions.*
- 3. It take certain amount of taxpayers' money to maintain a prisoner behind bars. Most of these persons become prisoner by making an incorrect decision somewhere in their life time. By teaching correct decision making at an early age we can reduce the number inappropriate decision made and maybe reduce the number of person behind bars.*
