Confidentiality

8. Public network operators shall not knowingly communicate, or allow access to any confidential, proprietary, or competitive information (including but not limited to, customer orders, market forecasts, plans for development of new services, network plans, current or proposed business plans, and new customers) received from another public network operator in respect of interconnection, except to the extent authorized by the operator in writing, or by the Act or these Regulations.

Dominant interconnection provider

10. (1) The Commission, acting on the recommendation of ECTEL, and by Notice or Order published in the Gazette, shall designate a public network operator as a dominant interconnection provider in a particular market or markets for telecommunications services if the Commission has determined, after a public consultation process, that a public network operator:

customers and ultimately consumers in a market or markets for telecommunications services; and

- (b) it is in the long-term interests of consumers of telecommunications services that the public network operator be so designated.
- (2) The Commission shall undertake a consultation process which will commence with a preliminary determination of market dominance and the designation of one or more dominant interconnection providers.
